AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

In response to the Patent and Trademark Office action dated September 6, 2002, applicants respond as follows:

In the claims:

Please substitute the following replacements for claims 9-11, 18, 19, 27-29, 33, 34, and 36-39. All claims in the application are attached to this amendment, including marked up versions of amended claims 9-11, 18, 19, 27-29, 33, 34, and 36-39 showing the changes relative to the previous versions of the claims.

9. (Amended) The system of claim 8 in which the rotating element includes a birefringent element with a selected polarization direction.

10. (Amended) The system of claim 8 in which the rotating element includes a plural refractive segments having different inclination orientations.

11. (Amended) The system of claim 1 in which the post-display dynamic displacement element includes a pair of face-to-face refractive elements with a separation between them that is modified to successively direct the color-component sub-pixels generated by the display panel along different optical paths.
